I've found an old link to obsolete products for the UPCI RS422 and RS232 products to create loopback plugs. Specifically for Control Product numbers 99341-4 and 99401-5. However it points to an ftp site with a broken link. Does anyone know where to get the information for these products to build loopback plugs?

Sure, here's a PDF that shows how to make them:

http://downloads.comtrol.com/contribs/devicemaster/help_files/Loopback.pdf
