Hi
I am looking for RTS v4.38 and not sure when did this release and where to find firmware file.
I would appreciate your help in this matter.
Thanks.

We have v4.38 Bootloader, it is highly recommended to update both SocketServer as well as Bootloader.
The latest firmware is located here:
<http://downloads.comtrol.com/devicemaster/>

Hi
Can you please provide release notes of v4.38 update? and release date as well. Thank you.
